

Inline Connectors

- Add or replace inline connectors at existing hose or tube fitting locations for safe, convenient access.
- Reduces sample valve install times by up to 80%
- Standardize on a -4 ORB port for reduced inventory.
- Sample from return line prefilter locations for best results.

Overview

To Order with valve:

Drop 4UF in part # & add valve L, KP, or KST series. (e.g. KP-6J-6JF)
Use valves with -4(7/16" ORB thread) or -2(1/8" BSPP thread) BSPP only

-Nitrile seals are standard. For FKM viton seals on valve add "V". (eg. KSTV-6J-6J)

Specifications

Operating Pressure depends on probe and valve specifications.
Connectors are rated up to 4500 psi
Standard Materials: Zinc dichromated plated steel, Nitrile seals

See Adapters or Call Checkfluid for other sizes and options.
