

Top-Up Pump

Fill a smaller volume of fluid quickly and easily through flexible plastic tubing

Benefits:

- Avoid opening the system to contamination
- For small gearboxes replace up to 125 ml (4 oz) immediately after sampling

Features:

- Rugged, lightweight plastic design goes anywhere
- Attaches to industry-standard sampling bottles
- Use with 1/4" or 5/16" OD tubing

Possible Top Up Locations

- Top of oil level glass
- Vent line
- Drain/Fill Quick Coupling
- Fill port on AB Breather
- L/LT/LTJ Series Valve
